Warner of Crash; Dies
BOWLING GREEN, O. (U.P.)—George L. Carmack, 75, was killed when he was struck by an automobile he was attempting to signal down in the dark to prevent a crash with his own machine, stalled on the highway.

Entrance Exams At Compton J. C. Next Saturday

All Torrance Students Who Wish to Enroll Must Take Tests

High school graduates in Torrance who plan to enter Compton Junior College are expected to take their entrance examination on Saturday, September 1, at the junior college, according to an announcement made today by school officials. The first semester of instruction will open on September 11 and 12. Those Torrance students who graduated from high school last June will register on Wednesday, September 12. The entrance examination, which is given for the purpose of assisting students in planning their courses, begins at 9 o'clock in the morning and will be completed by noon of that day.

A number of students in this vicinity attend Compton each year, enrolling for many different types of courses. The junior college offers them an opportunity to complete their education with a two-year finishing course in a wide variety of fields preparatory to entering a vocation, such as secretarial training, automotive mechanics, electricity, printing and machine shop. The college also offers an opportunity for those high school graduates whose high school record will not permit them to enter four-year colleges to make up high school deficiencies and to qualify for university entrance with little or no loss of time. The junior college offers the first two years of standard college work in many fields including letters and science, pre-law, pre-engineering, pre-medical, pre-nursing and pre-teaching.

Returning second-year students, who will register on Tuesday, September 11, will be confronted by an ever-changing offering of courses than in previous years. Among the new courses which will be offered for the first time in 1934-1935 are a course in applied psychology, applied economics, fine arts, publicity and public relations, physical science, survey and social psychology.

Preliminary registrations indicate that there will be a marked increase in enrollment the coming year and students are advised to make arrangements for admission before the date of registration.

Grid Rumors Say Pitt Coach Has Changed Type of Attack

PITTSBURGH, (U.P.)—Collegiate football circles hereabout whisper that Joeck Sutherland has changed his attack from power and straight football to speed and deception. Whether the reported change from the Warner system to one similar to Howard Jones' of Southern California is aimed particularly at that Pacific Coast gentleman is not known.

In fact there is nothing authoritative about the reports since Pitt's spring practice was very secret and nothing was mentioned of the change at a recent football clinic at Pitt.

Anyhow, the change, it is rumored, is a sharp swing from a system that depended on sheer power and power only to one that requires lightning ball handling, tricky running and puzzling shifts.

Sutherland, who has made his niche in football coaching with his potent teams, has been experimenting for years. And the only team he could not cope with was Southern California.

This year Jones brings his boys east to Pittsburgh for an October 12 meeting in the Pitt stadium. Maybe Sutherland has a few tricks in the bag for that game. If he has two is not mentioning it. However, the biggest attraction of the Pitt home season, according to inquirers, is the Notre Dame-Pitt game November 3. This is attributed to the presence of Elmer Layden at the head of the Irish and the keen rivalry between a system that depends on sheer power and power only to one that requires lightning ball handling, tricky running and puzzling shifts.

Sails have given way to steam, oceans are crossed in days instead of weeks, far away lands of yesterday are near today because of the swiftness of ocean travel, yet the sea never loses its power to beckon to the adventurous. Boys of today read tales of the sea as eagerly as did their grandfathers. Take this list with you to your county library branch when you want a good sea story.

150 Funmakers In Huge Circus

Great Ringling Bros. and Barnum & Bailey Present Most Clowns Ever

Ringling Bros. and Barnum & Bailey Combined Circus, truly the Greatest Show on Earth, making its grand and glorious 1934 tour of the continent and definitely scheduled to exhibit in Los Angeles five days, beginning September 6, has assembled from the four corners of the earth—and points in between—the greatest assemblage of clowns in all amusement history.

One hundred and fifty internationally-famous funmakers cavort and caper about the seven rings and stages and the huge hippodrome track this year in the most stupendous circus presentation ever offered.

Clowns have always been an important part of the circus and the amusement world was amazed and delighted when an even 100 of them were brought together for the first time by Ringling Bros. and Barnum & Bailey. But when 150 of the funniest clowns imaginable were placed on the same program in a simultaneous display this spring, the enthusiasm of circus-goers knew no bounds.

The big show, however, has a jealously guarded reputation for doing the new and unheard-of and there is evidence of this throughout its gigantic new performances this season.

Besides the clowns, there are 500 men and women arena stars of international eminence, many of them touring the American continent for the first time. Several of the producing clowns have introduced splendid ideas into this year's all new and greatly enlarged opening spectacle, The Durbars of Delhi in which more than 2000 people and animals take part. The Durbars heads a list of features newly assembled that will compel the vast 1934 program to be recalled with deep pleasure for a lifetime.

Among them is a great new congress of the world's foremost acrobatic champion leapers and somersaulters presented together in the most amazing athletic contest ever witnessed and a series of thrilling innovations including a startling new sensation presented by the Great Hugo.

The great combined circus will arrive on four long trains of 100 double-length steel railroad cars, bringing over 1600 people, 50 elephants, 1009 menagerie animals and 700 horses.

Shakespeare Play At Hollywood Bowl

Indicating tremendous interest in the forthcoming Reinhardt production of "A Midsummer Night's Dream," to be given at the Hollywood Bowl for five consecutive nights beginning September 17, hundreds of mail order applications have been received from all parts of Southern California since seats were placed on sale.

The production, which has attracted nation-wide attention and which, it is expected, will attract thousands of visitors to California, is being sponsored by the California Festival Association, a non-profit group organized by the California State Chamber of Commerce for the purpose of sponsoring each year in California a great festival comparable to the annual festivals of Salzburg, Austria; Malvern, England, and other European centers.

Find Mound Builders' Bones WILMINGTON, O. (U.P.)—Two skeletons, supposedly of mound builders, were unearthed in Port Ancient park by workmen excavating for a new observation platform. The bones, one an adult's, the other of a child, were well preserved.

Frigidaire alone offers **THIS IMPORTANT ADVANCE** in electric refrigeration

Centrally Located Freezer
Automatic Ice Tray Releasing
Automatic Reset Defrosting

THE NEW "SUPER FREEZER"

With the Super Freezer, Frigidaire makes electric refrigeration more convenient and more truly automatic. For example: when you need ice cubes, you simply press a lever and the trays slide right out. It's impossible for them to stick.

Then there's the matter of defrosting. All you do is flip a switch. When defrosting is completed your Frigidaire starts automatically.

Perhaps you have a large number of bottles to cool. You'll find plenty of room for all of them on both sides of the centrally located freezer. And the Frigidaire Super Freezer keeps uniformly low temperatures throughout the food compartment.

The Frigidaire '34 is equipped with the Super Freezer at no added cost to you. Its adoption as standard equipment is in keeping with the policy that has established Frigidaire's leadership and made it the choice of one and a quarter million more buyers than any other make of electric refrigerator.

And since the introduction of the new Frigidaire '34, more household Frigidaires have been sold than in any other similar period in Frigidaire history!

Come in today and see this new development. Learn for yourself why so many thousands are proudly saying:

Golden Bear To Have Great Team This Fall

Coach "Navy Bill" Ingram Predicts His Outfit Will Be Topnotchers

BERKELEY, Cal. (U.P.)—Take it from "Navy Bill" Ingram, California will have a sweet football club this year.

Bill, who once coached the mid-dies at Annapolis, returned here recently from an eastern trip and immediately predicted that his Golden Bears would be up near the top, "if not on top."

"We're right up where they have to respect us, or suffer the consequences," says Ingram. "We'll get our share of the wins, and don't be surprised if we finish on top."

"The California football team will be practically the same as that of the 1934 season except for a few of the boys who have graduated and a couple of promising juniors. There is a young fellow named Jim Carlson with whom a lot of Northern California fans are acquainted and who played a lot of football for San Mateo Junior College last year and who may do a lot more for the Golden Bears during the coming season.

"Sacramento Junior College is sending a fast backfield man in a fellow named McRae, but aside from Carlson and McRae I don't know of any others who are outstanding."

"The Cal freshman squad should be one of the best in history because several California high school stars have already signified intentions of coming to our school."

DISTURBANCE
E. A. Joberg, 2402 Neece avenue, Walteria; Neil M. Yoakim, 810 1/2 Portola, and Pete Bailey, 1329 Cabrillo, Torrance, were arrested August 29 and given a hearing on charges of disturbing the peace. The affair took place at the Kowshed, a resort at Walteria. Yoakim pleaded not guilty, was found not guilty and released. Joberg was committed to the county jail for 30 days in default of payment of \$100 fine. Bailey's fine of \$25 or 10 days was suspended for two years.
